

DUCHESNE-STRAWBERRY RIVERS DISTRIBUTION SYSTEM

** 1972 ASSESSMENT **

\$ 7,500.00

BASIS OF ASSESSMENT:

The 1972 Annual Water Assessment is based upon the Commissioner's Annual Report of Water delivered to each user during the year of 1971. This is in accordance with the minutes of the Annual Water Users meeting of March 15, 1972.

CALCULATION OF ASSESSMENT:

The commissioner's report for 1971 state that 345,317 acre-feet of water was diverted by the water users during the year of 1971. The 1972 assessment in the amount of \$ 7,500.00 is divided by 345,317 acre-feet which equals \$ 0.0217191740, which is the cost of one pro-rata acre-foot of water. This amount mulitplied times the number of acre-feet of water reported as used during 1971 equals his or her pro-rated share of the 1972 Assessment.

PROOF:

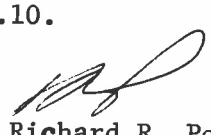

345,317 times \$ 0.0217191740 equals \$ 7,500.00

Prepared by: 
Richard R. Pexton
March 30, 1972

NOTE:

(See Account No. 116 - Central Utah Consv. District:)

A corrected 1972 Assessment was calculated on April 7, 1972 and a corrected assessment notice mailed, due to an incorrect number of acre-feet reported by the Water Commissioner, which was used to compute the original 1972 Water Assessment. Original 1972 Assessment equaled: \$ 1,511.31. Corrected 1972 Water Assessment equaled \$ 311.41. Therefore, the actual over-all 1972 Water Assessment totaled only \$ 6,300.10.
